

## PAYNE TARIFF IS AGAINST THE WAGE EARNER

Congressman Sulzer Declares  
Most of the Schedule  
Favor the Rich.

NOT RIGHT REVENUE.

Brantley Says Revision Act Is  
Only the Maintenance  
of Protection.

WASHINGTON, March 31.—"It is all a question of whose ox is gored," declared Mr. Sulzer of New York, speaking today in the House of the long debate which has been in progress on the tariff question. "The debate has impressed me with the wisdom of an observation of a former Democratic candidate for the Presidency, 'that the tariff is a local issue.' What a spectacle the debate this far has been!"

Bill Taxes the Poor.

"The Republicans contend," continued Mr. Sulzer, "that the exorbitant protection provided for in the Payne bill is for the benefit of the wage-earner. Every intelligent man in the country knows the absurdity of the proposition. Labor comes in from abroad, receives no protection, capital pays labor as cheaply as it can. Wages are regulated by the inexorable law of supply and demand."

"I am in favor of tariff reform in the interest of the consumers of the country and for the benefit of the toilers of the land. I am in favor of reducing the tariff rates wherever they foster trusts or monopolies. I would reduce the tariff rates on all goods, wares and merchandise which are manufactured in this country and sold cheaper abroad than at home. I would revise the Dingley tariff schedules in business way in the interest of the people. Payne bill violates every principle of democracy. It is the highest protection measure ever offered in Congress. It will burden beyond the calculation of the human intellect the struggling people of our country. If the Payne bill becomes a law, the cost of living will go up at least 25 per cent more. The Payne bill fosters monopoly and will make a few more men a little more prosperous. It takes from those least able to pay and gives it to those more able to pay. Most of the Payne tariff schedules are for the rich and against the poor—for the few and against the many."

"Give us free raw materials. Give us a free breakfast table. Let us tax wealth and not poverty."

Taft's Ideas Democratic.

Quoting from a speech by President Taft that the primary purpose of a tariff was that more revenue may be provided for the Government, Congressman Brantley, of Georgia, declared this to be the Democratic doctrine. "The primary purpose of the Payne bill," he contended, "was not revenue but the maintenance of the true Republican theory of protection."

Mr. Brantley laid the present deficit at the door of what he charged was Republican extravagance. Mr. Brantley said the Dingley tariff on sawed lumber of two dollars a thousand was not prohibitory, but a revenue rate, and he said if given the opportunity he would vote to have it restored. He attacked the cotton schedule on the ground that it was solely in the interest of the New England manufacturer.

Hits Paper Makers.

The countervailing duty on coffee was opposed by Mr. Douglas (Ohio) since, he said, Brazil, at which country it was directed, would be unable without impairing her finances to remove her export duty on the product.

Mr. Rothermel (Penn.) in a brief but vigorous speech favoring a reduction on wood pulp and print paper, severely arraigned the Gould Paper Company and the Continental Paper Bag Company. He quoted from testimony of representatives of these companies under oath before the Mann committee, in which it was stated they knew of no agreement or understanding among them fixing prices, and yet, he said, both companies pleaded to indictments charging them with unlawful combination in restraint of trade during the period beginning Sept. 19, 1906, and paid fines of \$2,000 each.

Mr. Rothermel maintained that so long as the fines were so small it would result in placing a premium on wrongdoing and also may be consid-

ered a good investment on the part of the lawbreaker.

Favors Drawback System.

The provision of the Payne bill withdrawing the scope of the drawback system was supported by Mr. Lovett (Mass.). He took issue with Mr. (underwood (Ohio) on the subject and declared that such a law operated against the American laboring man.

Standing behind a table loaded down with all sorts of exhibits showing the various stages of making wood pulp and paper, Mr. Mann (Ill.) discussed the recommendation of the pulp and paper committee, of which he was chairman, for a reduction of the duty on wood pulp and paper, and which recommendation the Ways and Means Committee adopted.

Mr. Mann said that the committee in the face of the impending campaign last summer, when it might have been claimed that a report from the committee reducing the tariff would have been of inestimable benefit to the Republicans, declined "to be influenced by the newspaper clamor in favor of a reduction of the tariff." In its final report, he declared also that the committee declined to be unduly influenced by the demands of the manufacturers.

Discussing the various processes for making pulp, Mr. Mann said that the whole theory of cheap paper depended upon the cheapness of the ground wood and of the supply of spruce wood.

## FRENCH IN PANIC OVER PAYNE BILL.

PARIS, March 31.—A delegation of French merchants engaged in the export business to the United States, headed by Andre Sayors, called upon Minister of Commerce Cruppi today and demanded that the Government take immediate steps to parry the injury that the Payne tariff revision bill threatens to inflict upon the export trade of France. The delegation declared that a minute examination of this bill had caused a veritable panic among exporters.

The duties to be collected upon gloves, feathers and perfumes, three articles produced particularly in France, had been raised, and no special arrangement with regard to duties was possible. If France refused her minimum rates, which was manifestly impossible under such conditions, the United States would be compelled to apply supplementary duties of from 20 to 40 per cent.

The delegation said also that the proposed to impose ad valorem rates upon goods contained to America would paralyze certain sections of the export trade, and it insisted that the Government take immediate action.

M. Cruppi received the delegation cordially, but he made no promises.

"I am in favor of tariff reform in the interest of the consumers of the country and for the benefit of the toilers of the land. I am in favor of reducing the tariff rates wherever they foster trusts or monopolies. I would reduce the tariff rates on all goods, wares and merchandise which are manufactured in this country and sold cheaper abroad than at home. I would revise the Dingley tariff schedules in business way in the interest of the people. Payne bill violates every principle of democracy. It is the highest protection measure ever offered in Congress. It will burden beyond the calculation of the human intellect the struggling people of our country. If the Payne bill becomes a law, the cost of living will go up at least 25 per cent more. The Payne bill fosters monopoly and will make a few more men a little more prosperous. It takes from those least able to pay and gives it to those more able to pay. Most of the Payne tariff schedules are for the rich and against the poor—for the few and against the many."

## SUPERFLUOUS HAIR CURED

A Lady Will Send Free to Any Sufferer  
the Secret Which

Cured Her.

From childhood I was distressed and humiliated by an unwelcome growth of hair on my face and arms. I tried all the depilatories, powders, liquids, creams and other rub-on preparations I ever heard of, only to make it worse. For weeks I suffered the electric needle without being rid of my blemish. I spent a great deal of money on various things in vain, until a friend recommended a simple preparation, which succeeded where all else had failed.

This simple remedy enabled me permanently to find entire relief from all traces of unwanted hair, and forever and my employment. It is simple, safe, sure, and can be used privately at home, without fear of pain or blemish. It makes the electric needle entirely unnecessary.

I will tell in detail full particulars to enable any other sufferer to achieve the same happy results as I did. All I ask is a two-cent stamp for reply. Address: Chicago, Ill., 200 E. 10th St., Room 101.

THE PUBLIC BENEFITED.

New York People Greatly Interested  
in the Generous Offer of

The Riker Drug Co.

The people have already demonstrated that they would rather trust a man who is naturally honest than one who is honest only because he had to be.

The Riker Drug Co. have a firmly established reputation for square dealing and sterling honesty. When they told the people that Rexall Remedies are the purest and most dependable remedies there is it possible for modern science to produce, and that they would tell the public exactly what each one of these 300 remedies contained, and that they sold Rexall Remedies on their own personal guarantee that they would give entire satisfaction or the medicine would not cost the user a single cent, they were believed.

Ever since this announcement the stores of the Riker Drug Co. have been crowded by people buying Rexall Remedies, all of which prove that the Riker Drug Co. have the confidence of the people and that honesty is the best policy.

There is no "more-all" among the Rexall Remedies—there are 300 different and separate medicines; one for each human ill, and each unquestionably the best of its kind.

Rexall Dyspepsia Tablets are particularly recommended for the positive cure of stomach irritation, indigestion and dyspepsia. They are rich in Bismuth, Subnitrate of Potash and Carminatives, and are prepared by a special process which perfectly enhances the great curative value of these well-known medicinal agents. This remedy sells for 25c, 50c and \$1.00 a package. Every one suffering from a stomach disorder should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

The Riker Drug Co. are certainly fortunate in securing control of the sale of these remedies, and every one in need of medicine is urged to investigate and take advantage of their frank and generous offer.
